

SWEETEX **101**

**A GUIDE FOR
NEW MEMBERS**

**Bothell
SWENext**

WELCOME BACK TO SCHOOL!

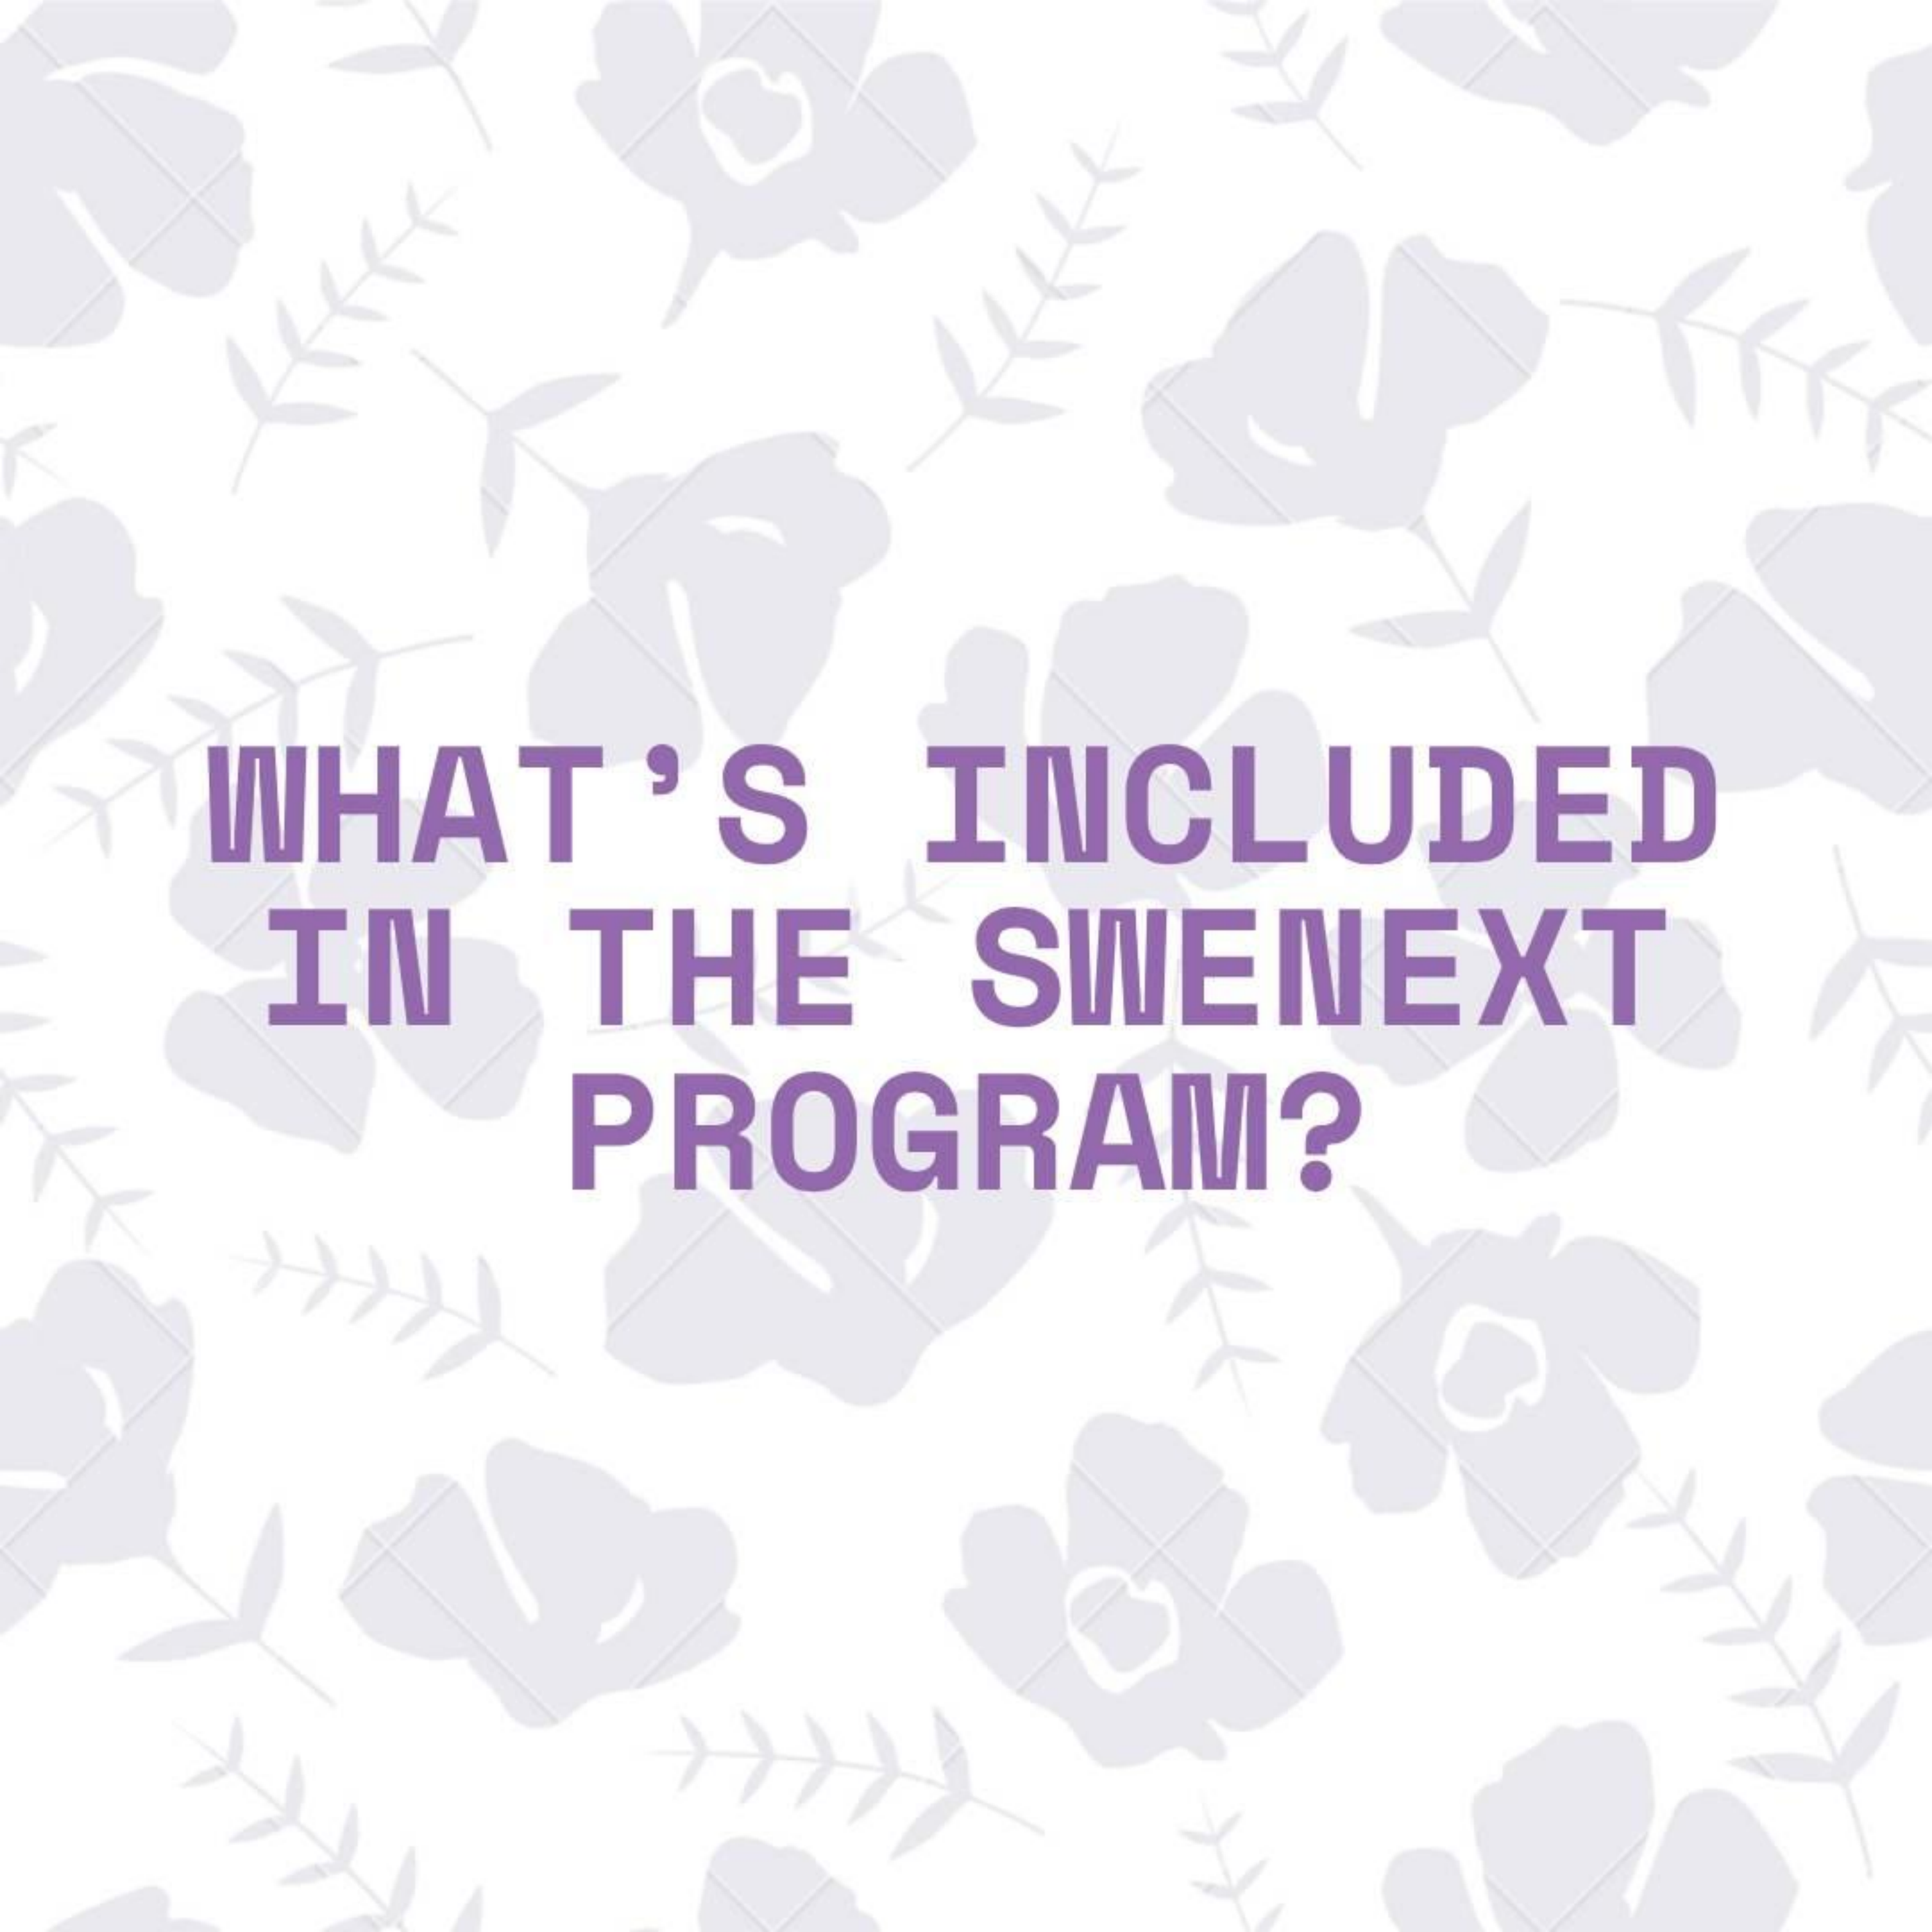

**Welcome Cougs! We are so
excited to invite you guys back
for another year with SWENext!**

**SWENext is a program
created and supported
by SWE's K-12
Outreach Committee.
It is a way for
students who are 18
years old and younger
to become a part of
the Society of Women
Engineers (SWE)
community before
college.
Joining is free!**

WHO CAN JOIN SWENEXT?

- Any students ages 13 to 18 can join at any time!
- Families, educators, and SWE members can be added to the SWENext mailing list as Adult Advocates
 - They will have access to SWENext information and resources

The background of the slide features a repeating pattern of stylized, light purple flowers and leaves on a white background. The flowers have five petals and a small heart-shaped center, while the leaves are simple, elongated shapes. The pattern is dense and covers the entire slide area.

WHAT'S INCLUDED IN THE SWENEXT PROGRAM?

HIGH SCHOOL SWENEXTERS

High School SWENexters receive a **monthly newsletter**, a **monthly advice column** (SWEet Wisdom), a **monthly social media challenge**, **scholarship application tips**, **high school milestones** and **college prep tips**, a closed Facebook group, **SWENext awards** at annual conference and WE Locals, and access to videos created by SWE collegiate sections highlighting key features of their colleges.

K-8 SWENEXTERS

Kindergarten through 8th grade (K-8) SWENexters receive a monthly newsletter and a monthly at-home engineering activity.

Both programs include invitations to STEM events hosted by SNE sections, the Society or its partners, access to SNE members, SWENext Swag from the SNEStore, and SWENext Club resources.

PRESENT

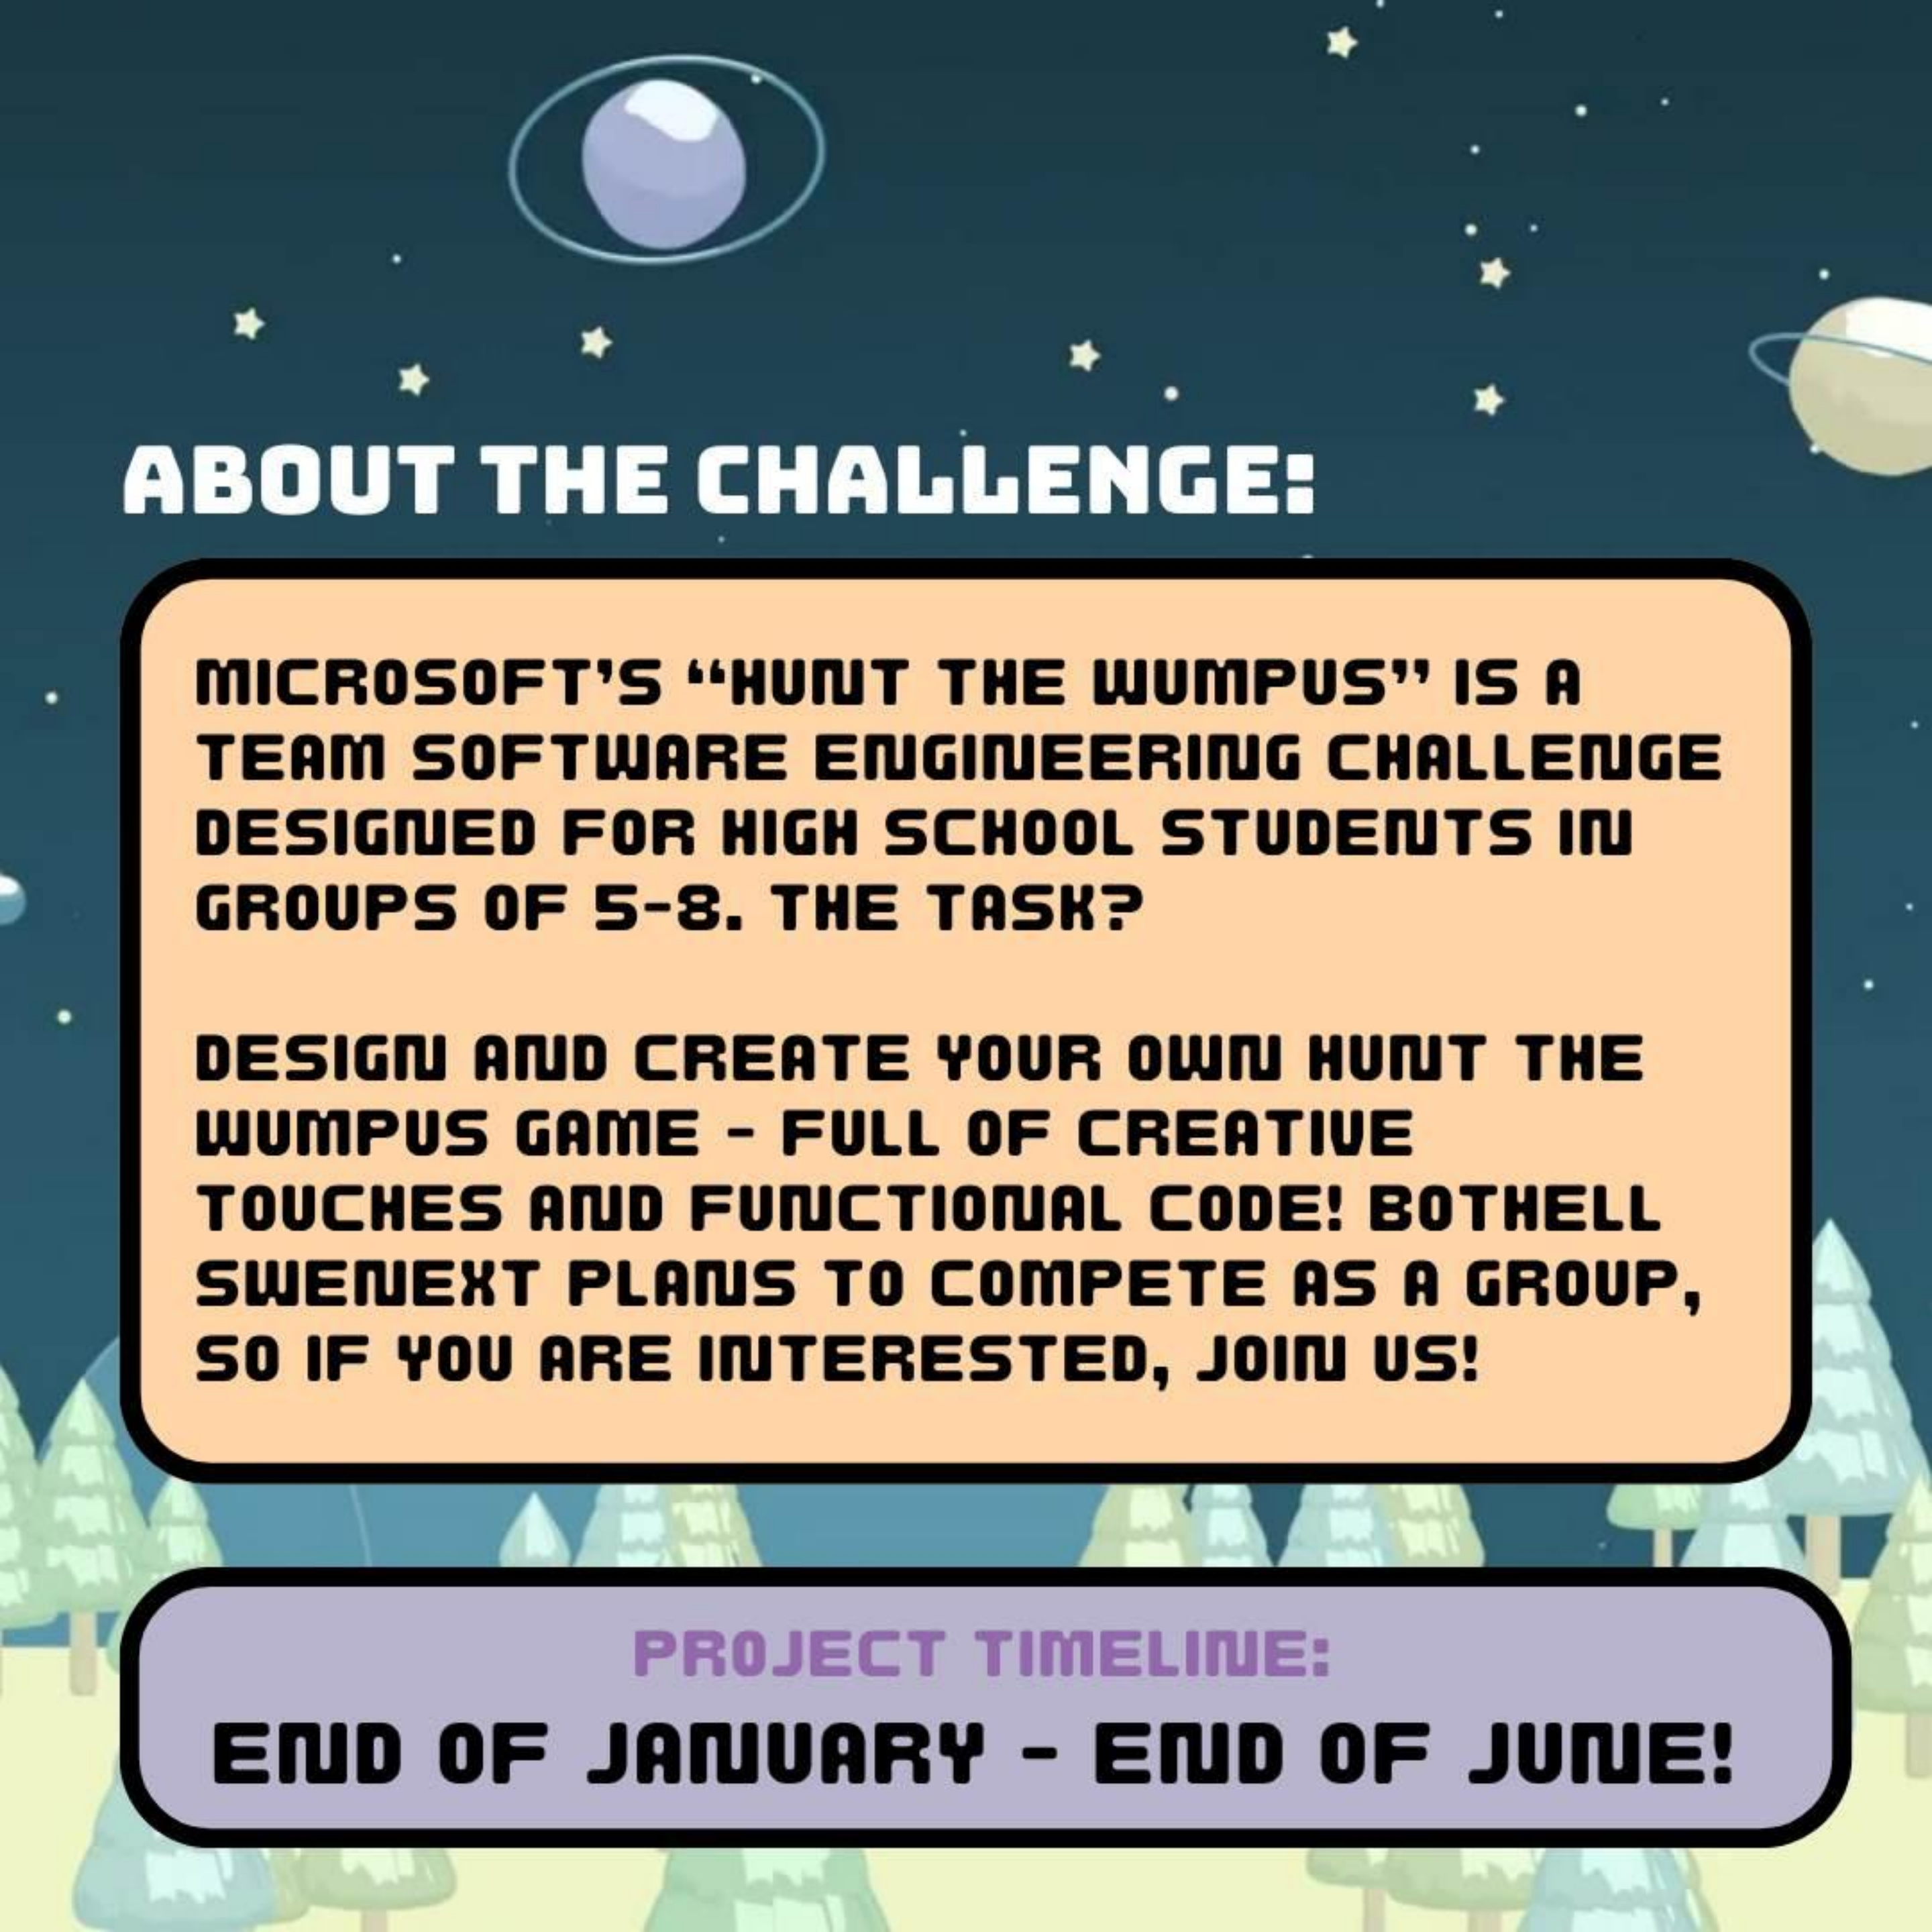

HUNT THE WUMPUS

Reimagine the classic game from the 90s!

PLAY

EXIT

COMING SOON!

ABOUT THE CHALLENGE:

MICROSOFT'S "HUNT THE WUMPUS" IS A TEAM SOFTWARE ENGINEERING CHALLENGE DESIGNED FOR HIGH SCHOOL STUDENTS IN GROUPS OF 5-8. THE TASK?

DESIGN AND CREATE YOUR OWN HUNT THE WUMPUS GAME - FULL OF CREATIVE TOUCHES AND FUNCTIONAL CODE! BOTHELL SWENEXT PLANS TO COMPETE AS A GROUP, SO IF YOU ARE INTERESTED, JOIN US!

PROJECT TIMELINE:

END OF JANUARY - END OF JUNE!

Five Reasons **TO HUNT THE WUMPUS** with Bothell SWENext!

Microsoft mentorship!

You will be matched with a couple Microsoft employees who will come in every week to help!

Build your coding skills!

No prior experience necessary!

Supportive team!

Bothell SWENext would love to have you join!

Have fun designing, creating, building, and testing a project!

Chance to compete and **win prizes/ swag!**

HAPPY COMPUTER SCIENCE EDUCATION WEEK!

12/4 - 12/9

BOTHELL SWENEXT

WHAT IS CSED WEEK?

Search

CSEdWeek was founded as a call to action to raise awareness about the need to elevate computer science education at all levels and to underscore the critical role of computing in all careers.

Many organizations, including **Bothell SWENext** and the University of Washington CS department, have planned special activities to celebrate this week!

Week at a Glance

Don't miss out!

MON

- Day 1 of IC
- 2 Allen School sessions

TUE

- Day 2 of IC
- 2 Allen School sessions

WED

- Day 3 of IC
- 2 Allen School sessions

THU

- Day 4 of IC
- GUEST SPEAKER
- UW Session

FRI

- Day 5 of IC
- 2 Allen School sessions

SAT

- ALLEN SCHOOL OPEN HOUSE

BOTHELL SWENEXT

Monday

12.4

DAY 1 of the Bothell SWENext Innovation Challenge!

- **Official registration, form teams of 2**
- **Problem statement, brainstorm + research**

Allen School 101

5:00PM - 6:15PM PT via Zoom - RSVP on Eventbrite

**Start off CS Education Week with our kickoff event
hosted by our Allen School ambassadors!**

**Changemakers in Computing - UW Seattle High
School Summer Program**

6:30PM - 7:00PM PT via Zoom - RSVP on Eventbrite

**Meet the Changemakers in Computing mentors and
learn about the University of Washington's Paul G.
Allen School of Computer Science's free 4 week
summer program.**

TUESDAY

12.5

DAY 2 of the Bothell SWENext Innovation Challenge!

- **Research and finalize idea**

**Interactive Video Organization and Complex Query
Generation 101**

5:00PM - 5:30PM PT via Zoom - RSVP on Eventbrite

In this activity, we're going to talk about two cool parts of the VOCAL (Video Organization and Interactive Compositional Analytics) system.

Participants do not need to make any preparations; we will walk through the demonstrations together with the audience.

Build your First website

5:00PM - 7:00PM PT via Zoom - RSVP on Eventbrite

Make your own starter portfolio website with us - No programming experience is required! We will go over basics of JavaScript, HTML, and CSS so you can get started on a beginners project to add towards and show off later on!

Wednesday

12.6

DAY 3 of the Bothell SWENext Innovation Challenge!

- **User personas, low-level prototyping**
- **Begin designing with Figma!**

Changing Communities with Tech

4:30PM - 5:15PM PT via Zoom - RSVP on Eventbrite

What does inclusion look like in tech? We will have an interactive activity that goes over ways your own communities can benefit from a solution you create on your own.

Machine Learning Activity 101

5:30PM - 6:30PM PT via Zoom - RSVP on Eventbrite

Dive into the world of Machine Learning at a thrilling workshop. Discuss the ethics of machine learning, get hands-on experience, and discover how this tech is reshaping our world. Leave with a deep understanding of machine learning's potential and ethical considerations.

THURSDAY

12.7

DAY 4 of the Bothell SWENext Innovation Challenge!

- High-level prototyping!
- Add finishing touches

GUEST SPEAKER!

- Steph Xu - Software Engineer at Microsoft
 - Gaming - Cloud streaming micro-services team
 - Undergraduate researcher @ Tufts University
 - Machine Structure and Programming Teaching Assistant

Data Visualization & Computer Vision 101

5:00PM - 6:30PM PT via Zoom - RSVP on Eventbrite

Explore the fusion of data visualization and computer vision at our hands-on activity session! Dive into cutting-edge techniques, learn how visuals can be transformed into actionable insights, and harness the power of AI-driven image analysis. No experience is required.

FRIDAY

12.8

DAY 5 of the Bothell SWENext Innovation Challenge!

- **SUBMIT PROJECTS by 3:15 PM**
- **Answer a couple short answer questions!**

Perceiving Distance in Virtual Reality

5:15PM - 6:00PM PT via Zoom - RSVP on Eventbrite

At the core of what makes virtual reality possible is tricking our brains into thinking what we see on a tiny display 3 inches in front of our face is really a vast 3D landscape. In this session we will learn about the different ways we perceive distance, and how to design virtual reality applications to mimic these effects.

Explore CS with Student Researchers

6:00PM - 6:45PM PT via Zoom - RSVP on Eventbrite

Computer vision, social computing, machine learning, security, and more! This session will feature mini-talks from undergraduate students about their field of research and project work, featuring a Q&A after.

SATURDAY

12.9

Allen School Open House! - RSVP on Eventbrite

1:00pm - 4:15PM PT

Schedule of Events:

- **Learning Fair: 1:00pm-3:00pm**
- **Allen School building tours: 1:00pm-2:30PM PT**
- **Allen School lab tours: 1:00pm-2:30PM PT**

**Allen School Prospective Freshman Information
Session**

3:15pm - 4:15PM PT

**DON'T
MISS!**

GUEST SPEAKER

STEPH XU

We're so excited to be joined by a Microsoft Software Engineer to celebrate CSEd week! Steph is involved in several Microsoft outreach efforts and is passionate about making STEM education more accessible.

BOTHELL SWENEXT

STEM X COMMUNITY SERVICE!

DIGITAL ACCESS EMPOWERMENT PROJECT

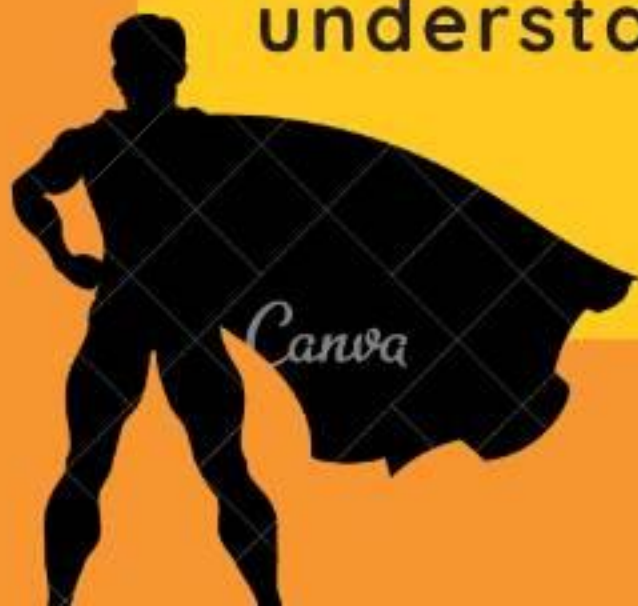

BOTHELL SWENEXT

WHAT IS IT?

The "Digital Access Empowerment Project" aims to bridge the digital divide by seeking out aging but still functional computing devices, refurbishing and recombining them as necessary, and donating the resulting revived equipment to underserved communities in Bothell.

The project will work with local organizations like "The Seattle Stand Down" (a veterans outreach group) and "Mary's Place" (a provider of meals and shelter for women and children in need) to help guide the students' understanding of particular needs of real people who are in need of technology.

**DISTRIBUTING
REFURBISHED
COMPUTERS OVER
BREAK!**

**JOIN
US!**

**HELP SPREAD
HOLIDAY CHEER
WITH THE SEATTLE
STAND DOWN!**

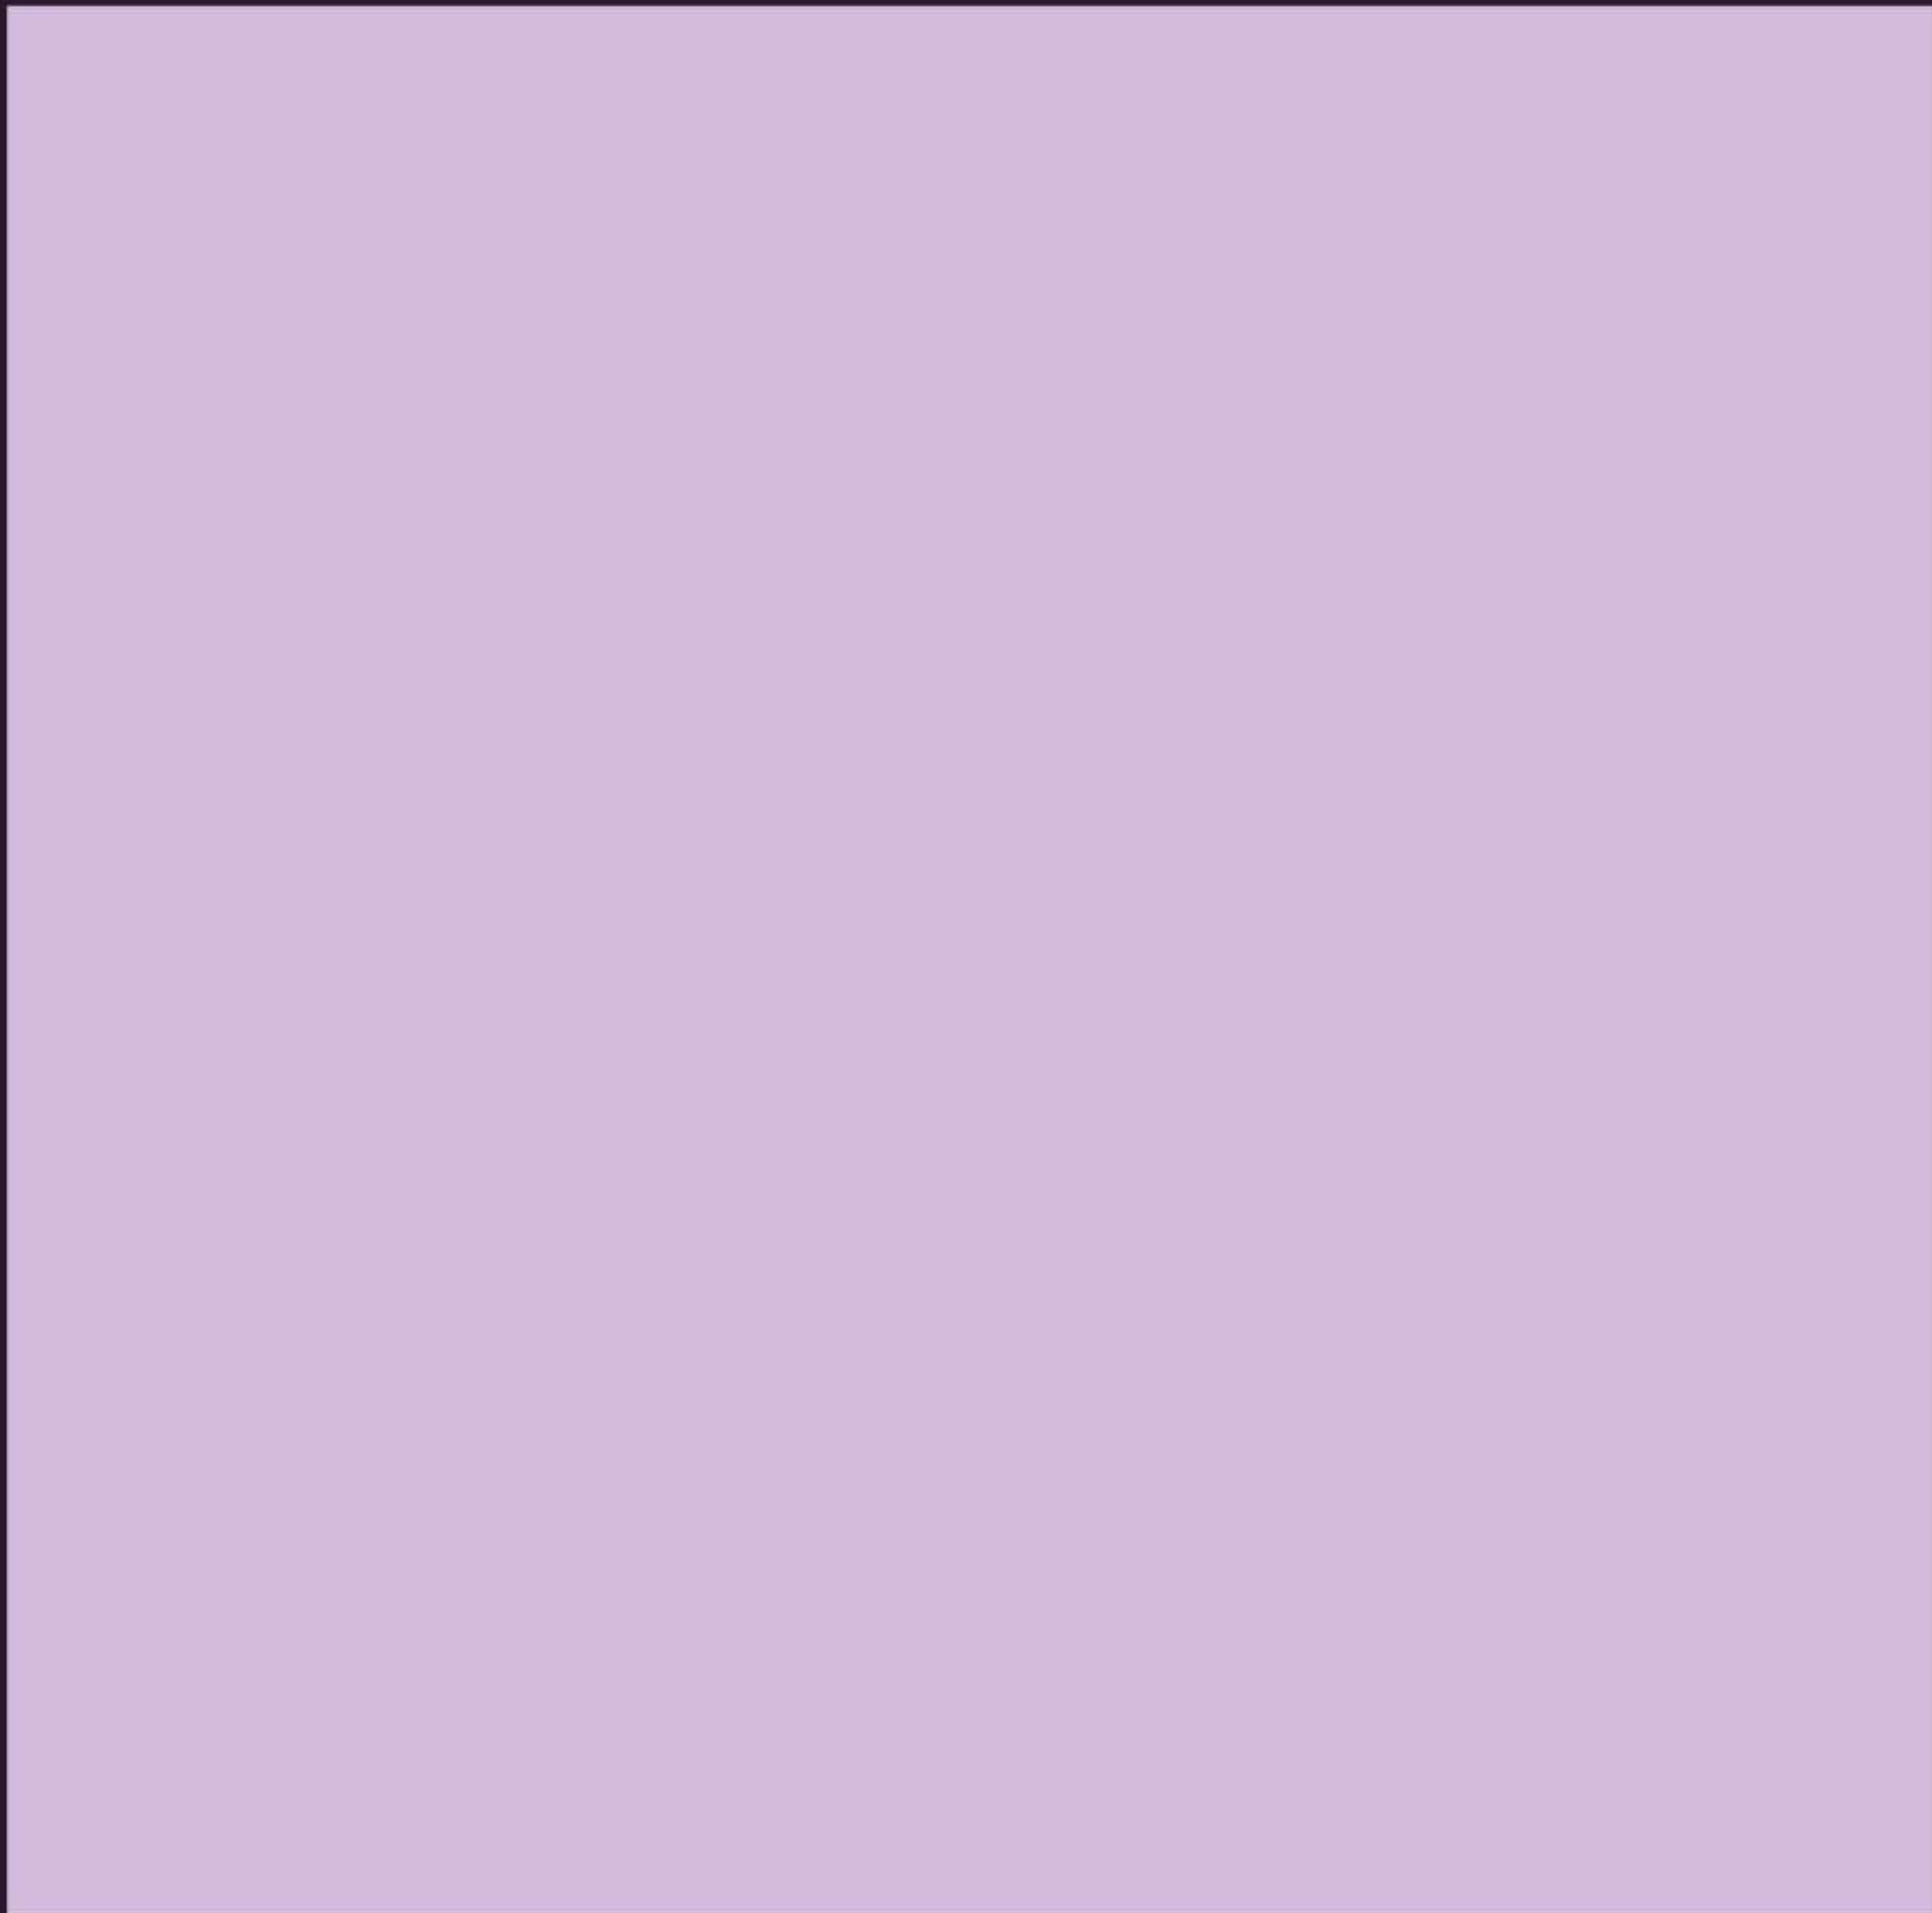

This initiative empowers underserved communities by refurbishing and donating computers, fostering technical skills, digital literacy, and social responsibility among students.

Help make a meaningful difference and bridge the digital divide through hands-on learning and community service!
