

THE COVID CUBICLES

Biotechnology Group 1
Period 7

THE PROBLEM SUMMARY

- People spread disease
- Very contagious
- Unreliable in quarantining themselves

THE PROBLEM SUMMARY

SAANVI

- Cannot trust free will
 - People make bad choices
 - Part of pandemic that we are
- Focusing on: lack of quarantining responsibility and efficacy of stopping the spread of communicable disease

THE PROBLEM SUMMARY

National Institute of Health – “rapid expansion of the Sars-CoV-2 coronavirus in Spain...allowing numerous mass demonstrations for demands or celebrations, despite [the government] knowing, as was shown later, the consequences of having allowed it”

DEBBIE

THE PROBLEM SUMMARY

One study from Nature found that regions with lower quarantine compliance experienced COVID-19 mortality rates approximately 2.5 times higher than regions with higher compliance (Chang et al., 2021).

KEEGAN

THE PROBLEM SUMMARY

A modeling study published in The Lancet estimated that for each 10% decrease in quarantine compliance, COVID-19 transmission rates increased by 28–32% (Prem et al., 2020).

KAUSTUBH

THE COVID CUBICLES

SAANVI

THE SOLUTION

- Government-funded state-of-the-art private residences for those infected with a deemed “Emergency Viruses”
- 100,000 “cubicles”
 - Consists of a bedroom/bathroom, kitchen, and small balcony

THE COVID CUBICLES

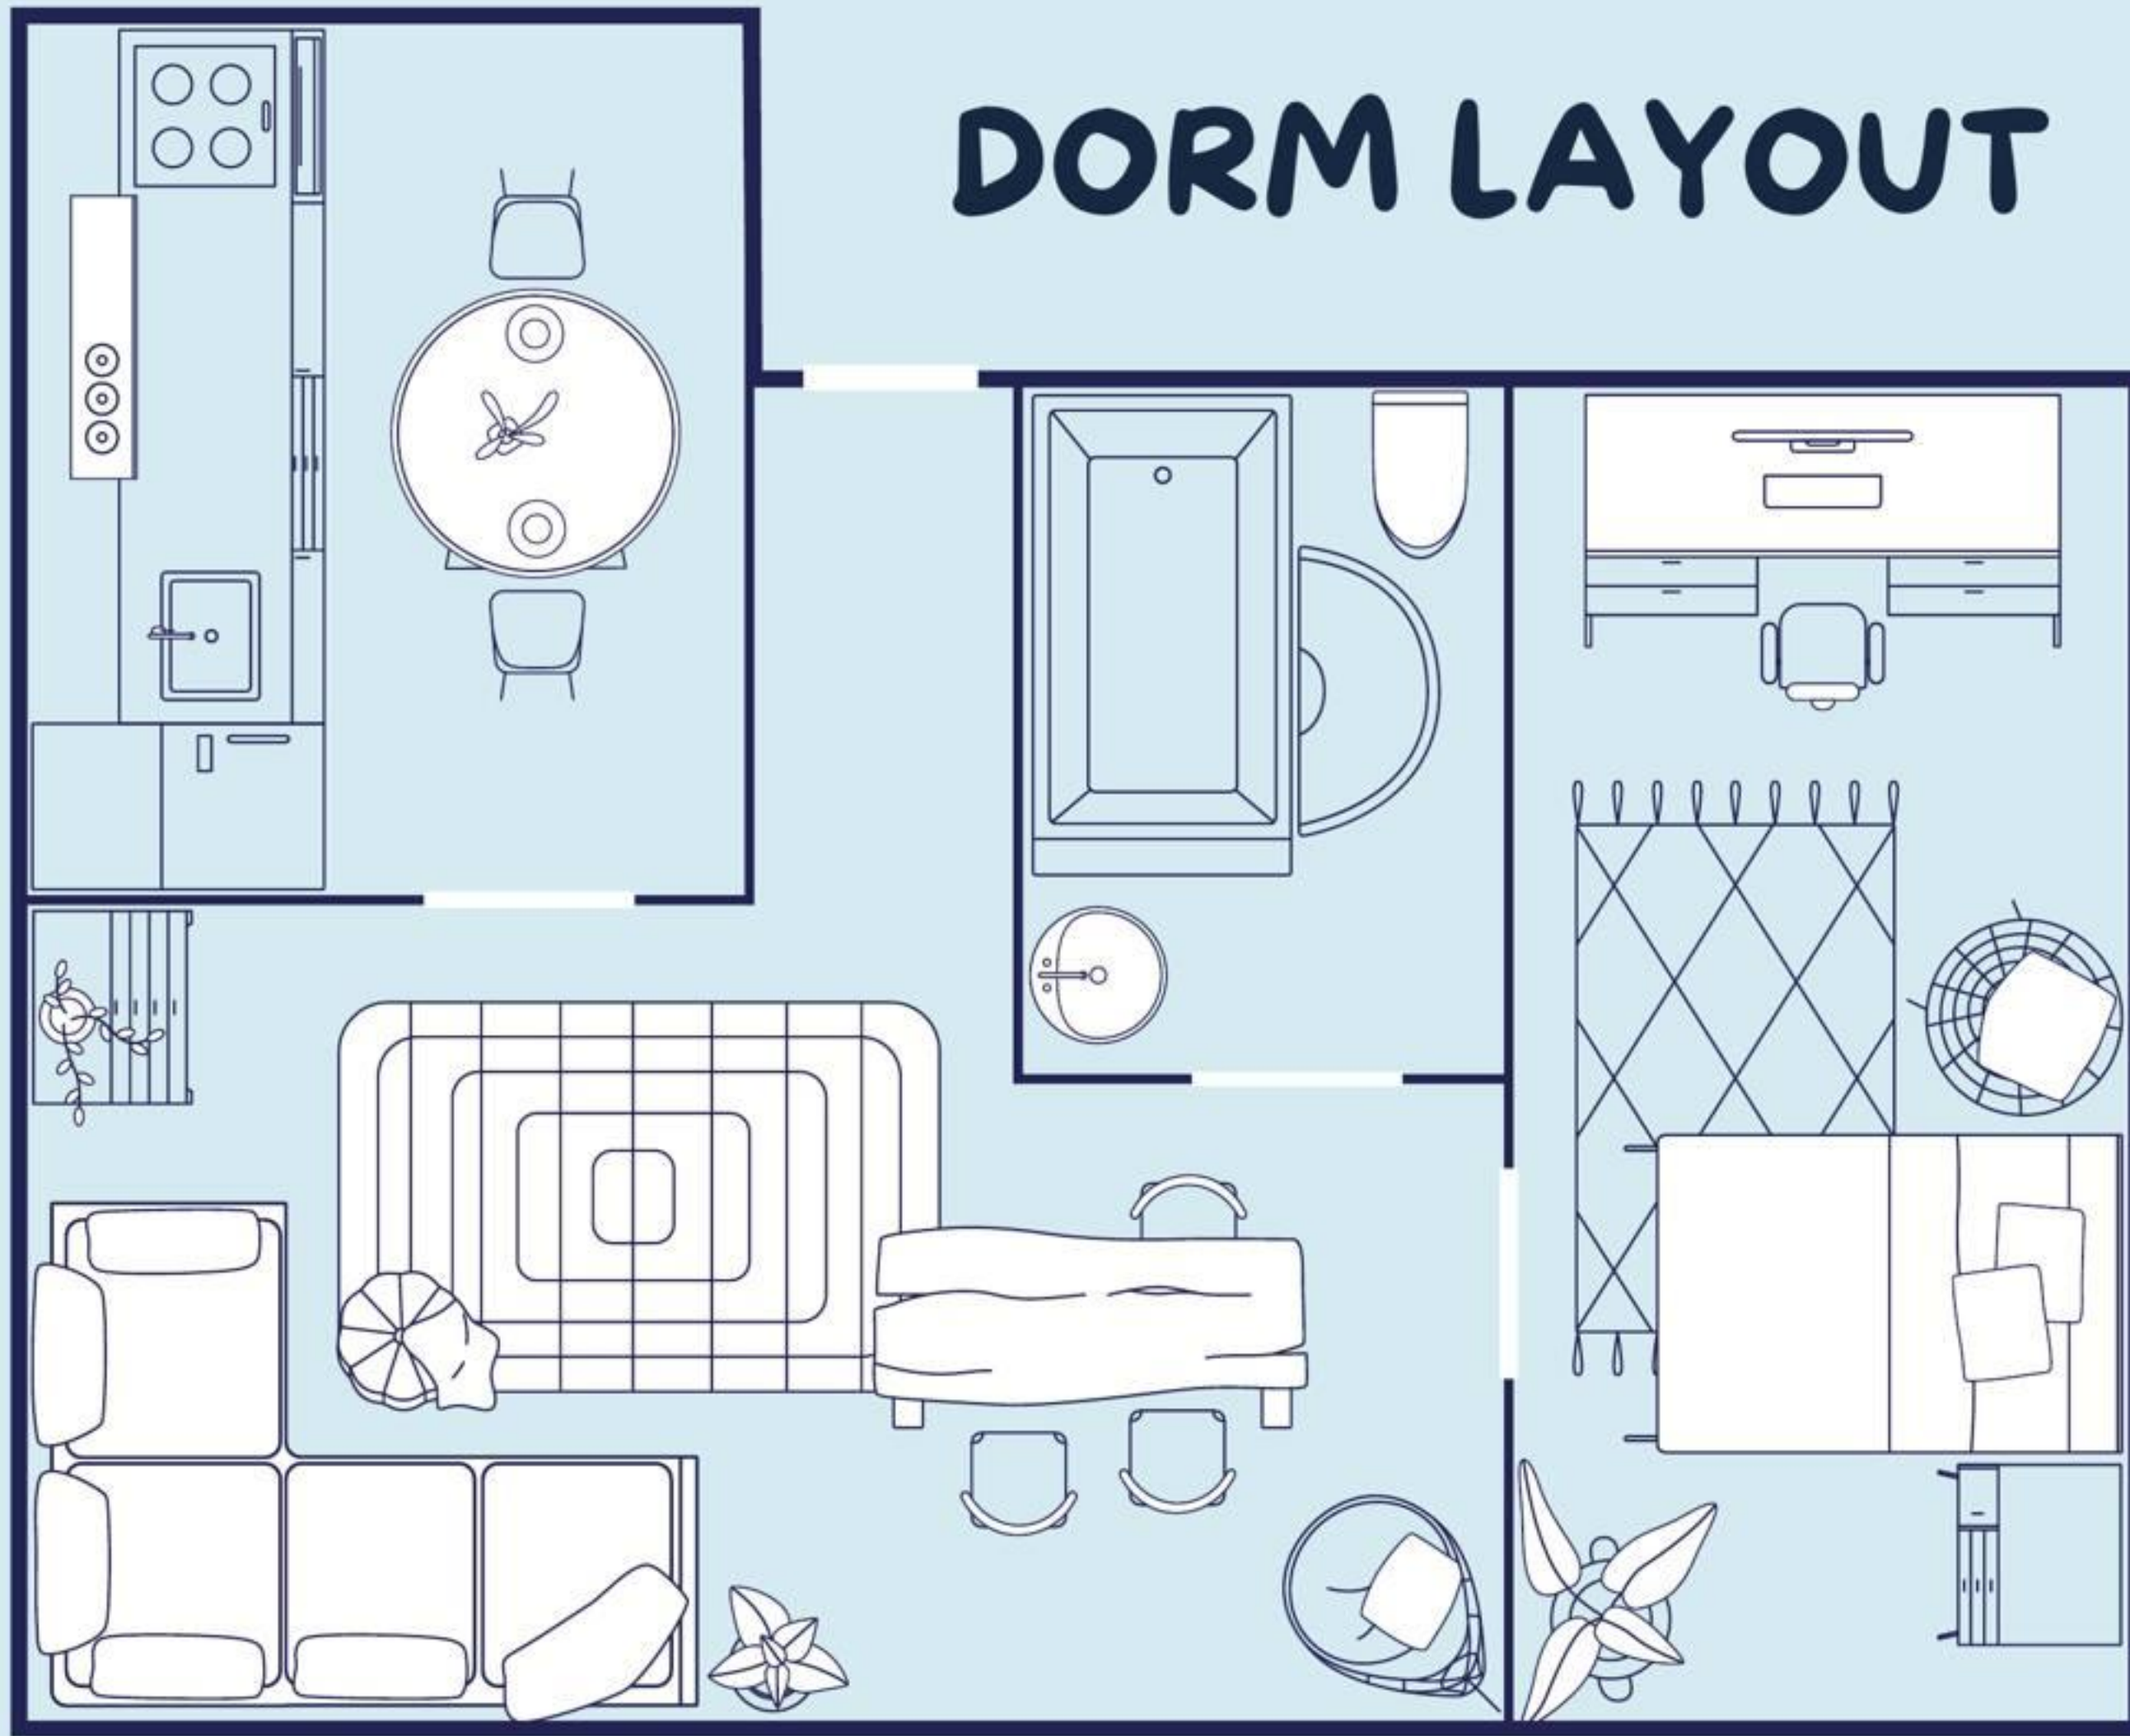

DEBBIE

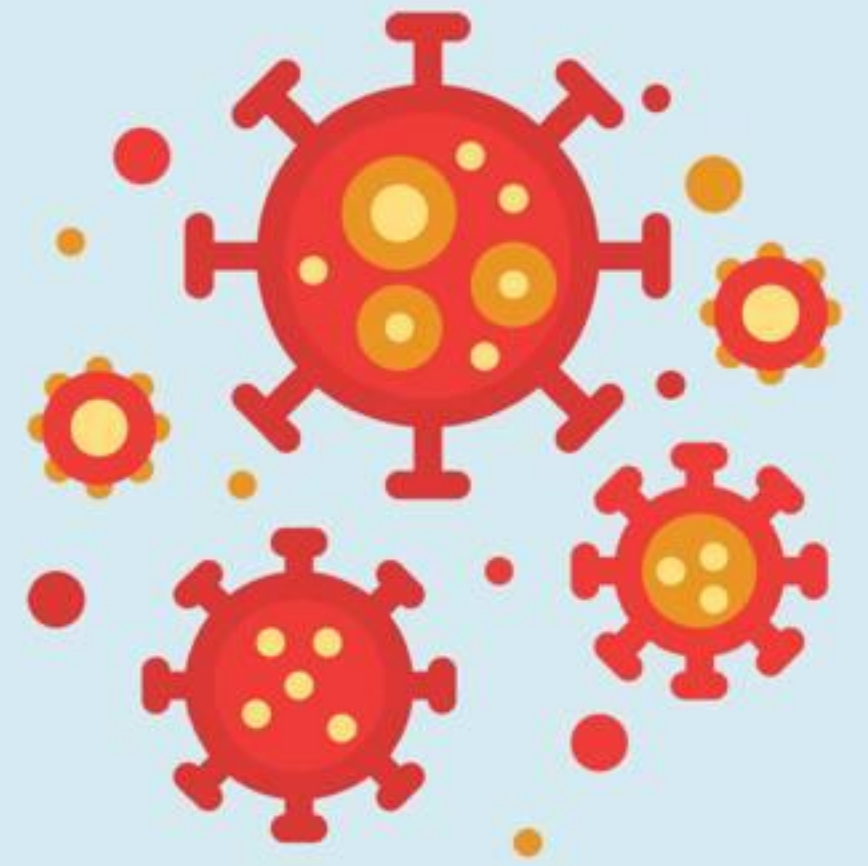

THE SOLUTION

- Anyone who has COVID must be transported to stay in these cubicles
 - Public funded buses
- Multiple facilities throughout the country
- Stay for 2 weeks OR whenever you are tested negative

DORM LAYOUT

BUDGET BREAKDOWN

KEEGAN

Building Requirements

Total: 65m Sq ft

- Monolithic slabs (11\$ per sq ft)
- concrete (6.75\$ PSF)
- Roofing (15\$ PSF)
- stem walls (36\$ PSF)
- Transportation

\$

715m
438m
3.9B
720m
165m

Appliances

- Fridges (40m)
- electric/AC/vents (155m)
- Furniture (35 – 40m)
- entertainment (45m)
- Beds/ sleeping (50m)

Budget

TOTAL COST: \$5.7b

UNINTENDED CONSEQUENCES

KAUSTUBH

CONCERNS ABOUT HUMAN RIGHTS

LEGAL AND ETHICAL CONCERNS

- The right to control one's health (living area)
- Informed consent & body integrity
- Isolation – Separation in a far manner
- Participation in health-related decisions

JOB AND FINANCE

- Restricted people from going to their workplace and work
- Limited for certain jobs
- Contribute to even more financial difficulties
- Possible economic crisis in a country
- Companies that require in-person labor may go bankrupt
- Not enough workers successfully carry out jobs
- Retaliation against government funding being used

MENTAL HEALTH IMPACT

- lack of social support and human interaction
- depression and anxiety
- isolation – no family, lack of social
- Not enough outdoor activities
- Reduced physical activities in general
- contribute to increased stress and depression

DEBBIE

**THANK YOU AND STAY
HEALTHY**
